Hani Abdelrahman Mahmoud

Software Engineer

hanyouf37@gmail.com | 01024742768 | Giza, Egypt | linkedin.com/in/hani-abdelrahman-75696a197

SUMMARY

Computer Science graduate from Cairo University, currently training in Full Stack Web Development at ITI. Skilled in Node.js and .NET, with a strong interest in building practical web applications and solving real-world problems through technology.

PROFESSIONAL TRAINING

Information Technology Institute (ITI) Sep 2026 - Present

Open-Source Full-Stack Web Development with AI Integration

Professional training in software engineering, full-stack web development, cloud and DevOps, secure software delivery, and AI-enabled application development.

EDUCATION

B.Sc. in Computer Science 2020 - 2024

Cairo University, Giza, Egypt

TECHNICAL SKILLS

Programming Languages: JavaScript, C#, SQL
Backend Development: Node.js, Express.js, .NET, RESTful APIs
Databases: MongoDB, MySQL
Tools & Technologies: Git, GitHub, Postman, Docker, Linux

PROJECTS

Natours - RESTful Travel API

Node.js, Express.js, MongoDB, Mongoose, JWT

- Built a RESTful backend API for managing tours, users, and reviews.
- Implemented JWT-based authentication and role-based authorization for protected endpoints.
- Developed tour query features including filtering, sorting, field limiting, and pagination.
- Improved API security using rate limiting, data sanitization, secure HTTP headers, and parameter-pollution protection.

E-Commerce REST API

ASP.NET Core Web API, Onion Architecture, Unit of Work

- Built RESTful API endpoints for product and order management.
- Applied Onion Architecture to separate domain, application, infrastructure, and API concerns.
- Used the Unit of Work pattern to coordinate data access and support maintainable application design.

SCHOLARSHIPS & ACHIEVEMENTS

Third Place - Samsung Innovation Campus Scholarship | Two-Month Training Program | 2023
